

## Volker Bach – Publications (as of 03-Jun-2026)

- [1] V. Bach. A proof of Scott’s conjecture for ions. *Rep. Math. Phys.* , 28(2):213–248, 1989.
- [2] V. Bach. Ionization energies of bosonic coulomb systems. *Lett. Math. Phys.* , 21:139–149, 1991.
- [3] V. Bach and H. Siedentop. Universality of the Fermi-Hellmann model. *JMAA*, 157(2):385–394, 1991.
- [4] V. Bach. Error bound for the Hartree-Fock energy of atoms and molecules. *Commun. Math. Phys.* , 147:527–548, 1992.
- [5] V. Bach. Accuracy of mean field approximations for atoms and molecules. *Commun. Math. Phys.* , 155:295–310, 1993.
- [6] V. Bach, R. Lewis, E. H. Lieb, and H. Siedentop. On the number of bound states of a bosonic N-particle Coulomb system. *Math. Z.* , 214(3):441–460, 1993.
- [7] V. Bach, E. H. Lieb, M. Loss, and J. P. Solovej. There are no unfilled shells in Hartree-Fock theory. *Phys. Rev. Lett.* , 72(19):2981–2983, 1994.
- [8] V. Bach, E. H. Lieb, and J. P. Solovej. Generalized Hartree-Fock theory and the Hubbard model. *J. Stat. Phys.* , 76:3–90, 1994.
- [9] V. Bach. Correlation estimate for fermions. In D. Iagolnitzer, editor, *IX<sup>th</sup> International Congress of Mathematical Physics*, pages 479–490. International Press, 1994.
- [10] V. Bach. Perturbation theory and renormalization. Habilitation, Nov. 1994.
- [11] V. Bach, J. Fröhlich, and I. M. Sigal. Mathematical theory of non-relativistic matter and radiation. *Lett. Math. Phys.* , 34:183–201, 1995.
- [12] V. Bach, A. Knauf, and U. Strubbe. Anschlussoptimierung – Methodischer Ansatz und praktische Anwendung. Preprint der IVU als Beitrag zum Symposium on Operations Research, Braunschweig, September 1996.
- [13] V. Bach and J. Poelchau. Hartree-Fock Gibbs states for the Hubbard model. *Markov Processes and Rel. Fields*, 2(1):225–240, 1996.

- [14] V. Bach, J. Fröhlich, and I. M. Sigal. Mathematical theory of radiation. *Found. Phys.* , 27(2):227–237, 1997.
- [15] V. Bach. Approximative theories for large Coulomb systems. In J. Rauch and B. Simon, editors, *Quasiclassical Methods*, volume 95 of *IMA Volumes in Mathematics and its Applications*. Springer, 1997.
- [16] V. Bach and J. Poelchau. Accuracy of the Hartree-Fock approximation for the Hubbard model. *J. Math. Phys.*, 38(4):2072–2083, April 1997.
- [17] V. Bach, J. Fröhlich, and I. M. Sigal. Quantum electrodynamics of confined non-relativistic particles. *Adv. in Math.* , 137:299–395, 1998.
- [18] V. Bach, J. Fröhlich, and I. M. Sigal. Renormalization group analysis of spectral problems in quantum field theory. *Adv. in Math.* , 137:205–298, 1998.
- [19] V. Bach, J.-M. Barbaroux, B. Helffer, and H. Siedentop. Stability of matter for the Hartree-Fock functional of the relativistic electron-positron field. *Doc. Math. J. DMV*, 3:353–364, 1998.
- [20] V. Bach, J. Fröhlich, and I. M. Sigal. Spectral analysis for systems of atoms and molecules coupled to the quantized radiation field. *Commun. Math. Phys.*, 207(2):249–290, 1999.
- [21] V. Bach, J. Fröhlich, I. M. Sigal, and A. Soffer. Positive commutators and spectrum of Pauli-Fierz Hamiltonian of atoms and molecules. *Commun. Math. Phys.*, 207(3):557–587, 1999.
- [22] V. Bach, J.-M. Barbaroux, B. Helffer, and H. Siedentop. On the stability of the relativistic electron-positron field. *Commun. Math. Phys.*, 201:445–460, 1999.
- [23] V. Bach. Iwv-2000: Problemanalyse und -lösung mit Pseudocode. Document delivered to DaimlerChrysler AG, 1999.
- [24] V. Bach, J. Fröhlich, and I. M. Sigal. Return to equilibrium. *J. Math. Phys.*, 41(6):3985–4060, June 2000.
- [25] V. Bach, T. Jecko, and J. Sjöstrand. Correlation asymptotics of classical lattice spin systems with nonconvex Hamilton function at low temperature. *Ann. Henri Poincaré*, 1:59–100, 2000.
- [26] V. Bach, F. Klopp, and H. Zenk. Mathematical analysis of the photoelectric effect. *Adv. Theor. Math. Phys.*, 5:969–999, 2001.

- [27] V. Bach. Return to thermal equilibrium in quantum statistical mechanics. In S. Graffi and A. Martinez, editors, *Long Time Behaviour of Classical and Quantum Systems*, volume 1 of *Series on Concrete and Applicable Mathematics*, pages 62–73. World Scientific, 2001.
- [28] V. Bach. Spectral analysis of nonrelativistic matter coupled to quantized radiation fields. In A. Fokasand, A. Grigoryan, T. Kibble, and B. Zegarlinski, editors, *XIII<sup>th</sup> International Congress of Mathematical Physics, London, July 2000*, pages 3–28. International Press, 2001.
- [29] V. Bach. Spectral analysis of nonrelativistic quantum electrodynamics. In C. Casacuberta, R.M. Miró-Roig, J. Verdera, and S. Xambó-Descamps, editors, *European Congress of Mathematics, Barcelona, July 2000*, volume 1, pages 177–202. Birkhäuser, 2001.
